Dr. Marcien Fournier, MD, FRCPC

CMA President, 1989-90
Laval University, 1961
Pathology

Dr. Fournier was heavily involved in CMA activities almost from the time he graduated from medical school. Over the years he not only served as a member of the CMA Board of Directors but also on the Executive Committee and as treasurer. He told CMAJ he wanted to see closer ties between physicians in Quebec and those in the rest of the country. “The problem is, many Quebec doctors now have no relationship with those in the rest of Canada because for residencies, for internships, Quebec doctors have to go with Quebec programs. This non-portability is a bad thing because it means they are shut off from the rest of the country.”
