Average Hours Worked Per Week by Physicians, by Sex, 1982-2014

Notes:
Includes all full-time, part-time, and semi-retired physician respondents; does not include on-call hours
Surveys prior to 1993 and after 2004 were census surveys of all active physicians in Canada. Surveys from 1993-2003 were sample surveys.
1982 to 1995 results based on revised methodology developed in 1997, therefore, results may differ from those previously published.
**The responding sample (size: n) has been weighted to represent the population (size: N). Further detail available at www.nationalphysiciansurvey.ca.
