GENERAL INFORMATION

Dermatology is a diverse specialty that deals with benign and malignant disorders of the skin, mouth, external genitalia, hair and nails, as well as a number of sexually transmitted diseases.

Dermatologists engage in a variety of procedural work and have the opportunity to combine cognitive skills with surgical skills. They also have expertise in the care of normal skin and in the prevention of skin disease and skin cancers.

A dermatologist must be knowledgeable about:

- all primary diseases of the skin and cutaneous manifestations of diseases in internal medicine, pediatrics, and other specialties;
- normal and disturbed immunological cutaneous mechanisms;
- venereal diseases;
- Dermatopathology;

Source: Pathway evaluation program
GENERAL INFORMATION

- dermatologic therapy, including a knowledge of percutaneous absorption, the pharmacology of topical and systemic medications, and light and ionizing radiation;
- the rational use of dermatological surgical procedures, including cryotherapy and more extensive cutaneous surgery.

Upon completion of medical school, it takes an additional 5 years of Royal College-approved residency training to become certified in dermatology. This period must include:

- 2 years of basic clinical training (including a minimum of 12 months of internal medicine and 3 months of pediatrics, and must include specific rotations in rheumatology, infectious diseases and oncology). In addition, rotations in plastic surgery, emergency medicine and pathology are recommended;

Source: Pathway evaluation program
GENERAL INFORMATION

- 3 years of Royal College-approved residency training in dermatology, at least 1 year of which must be spent in a general hospital with not less than 6 months on in-patient or consultation services. Up to 1 year of this training may include full time clinical or basic science research related to dermatology or dermatopathology, provided both the resident and the site of training are approved by the program director.

For further details on training requirements please go to:
